U.S. LAW REVIEWS: A FOCUS ON ADMINISTRATIVE LAW

Marco Lunardelli^{*1}

From this issue on, the present review, aimed at conducting an inspection of U.S. law reviews and journals from an administrative law perspective, will be following a new approach. Instead of analyzing in detail some essays, previously singled out, it will mention – as if they were included in a footnote – as many administrative law articles published in most law reviews and journals throughout the United States as are deemed significant. Since the number of essays and notes identified in the way just described will be large, they will be divided into classes, ordered by subject. The purpose is to provide the reader with a global overview of the main administrative law issues, as well as of some topics strictly related to administrative law, which U.S. law reviews and journals addressed after the last review came out in the Italian Journal of Public Law.

Major Questions Doctrine
